

The Northern DDB club won

“Best Breed Club Stand”

In Working Group at Crufts 2013!

What a great achievement at the UK's most prestigious show. We are over the moon winning this award given we had only been Kennel Club Recognized for a year so to win this so early on is such a positive step for the breed and our Club.

The Kennel Club judge the stands not just on how they look but on the information provided to our visitors. Most of the information was carefully written by the committee who spent a lot of time preparing the most informative stand we could. It took weeks of work and we are so pleased it all paid off!

We provided visitors with information regarding health issues raised with in the breed by the Kennel club, lots of educational information on the breed standard with a in depth look into the history of the breed leading us to why the breed looks how it does this day in age. Education was the key! We would like to thank the Kennel Club for recognizing all the hard work and dedication we put in to the club and we would also like to say a huge thank you all our wonderful committee members for all the hard work they put into representing our breed and making the club the best it can possibly be!

Thank you to Stephen Davis for providing the lovely photo
