HIGH PROFILE BREEDS EDUCATION DAY

WITH THE KENNEL CLUB

We attended the high profile breeds education day at Stoneleigh and overall it was a very productive day. The different clubs in each breed were there to give their side to the reasons why our breed is on the high profile list and to give a presentation on the breed. Our committee worked hard to represent our breed in the most positive light not only by handing out in depth information we had wrote ourselves on the breed but bringing our dogs along to the day for a demonstration so the vets and judges could go over them giving them more understanding to our thoughts on why we think we shouldn't be on the high profile list.

There was so much positive energy around the breed nothing negative at all so we left the day feeling happy that we demonstrated very well that our breed can be big, beautiful, sound, happy, healthy and a force to be reckoned with.
